SUMMARY

Product designer with experience across startups, freelance projects and internships. Designs web and mobile experiences through user research, workflow mapping, wireframing and interface design. Works on consumer products and multi-role operational platforms, and uses AI to create interactive prototypes and live website experiences.

EXPERIENCE

Heizen | Product Designer | 2025 - Present

- Designed web and mobile experiences across multiple client projects, from user research and UX planning to high-fidelity interface design.
- Structured complex workflows for customer-facing applications, admin dashboards and platforms with multiple user roles.
- Used AI-assisted design and prototyping to explore concepts, refine interfaces and create interactive mobile and web experiences.
- Selected work includes NUTRIO, spanning customer, delivery, kitchen and admin experiences, and TAN90, a multi-portal cold-chain logistics platform.

Freelance | Product Designer | 2022 - 2024

- Designed web and mobile interfaces for early-stage companies, translating client requirements into user flows and UI designs.
- Developed brand identities and reusable design systems to support consistent digital experiences.

Urban Culture | UI/UX Design Intern | May 2024 - July 2024

- Designed an admin panel to support operational workflows and created social media content aligned with the brand identity.

Scenco | Product Designer | 2022 - 2023

- Designed end-to-end UI/UX and conducted competitive research to inform product features.
- Built and maintained a design system to support consistent interfaces and developer handoff.

Polo | Product Designer | 2022 - 2023

- Contributed to digital product design and created high-fidelity interactive prototypes aligned with business goals and user needs.

SKILLS
